

Healing Crystals by Power and Color

Compliments of Spider Spirit Woman and Firelight Crystals

www.AncientSpiritWisdom.com

These are stones that my spirit guides have given me to share with others as healing tools. Crystals are star seeds planted on earth to help us overcome life's problems as we raise our conscious awareness and our energetic vibration. Use the stones you are drawn to when selecting them, your body knows what energies it needs.

Spirit guided my husband and me to start selling crystals about ten years ago. We look forward to meeting you as you come visit us at our Firelight Crystals display in the various whole health and metaphysical shows. See the calendar on my blog for dates and locations. Enjoy and let me know if you have any exciting experiences. I may not be able to acknowledge all contacts, but know that I do truly appreciate them. Thanks for visiting my blog, pass it on to friends. Enjoy!
